## Updates

- **20 December 2022:** Conference website goes live.

## Description

The FEniCS 2023 conference is an opportunity for all those interested in the FEniCS Project and related projects to exchange ideas, communicate their results and network with the automated scientific computing community.

We welcome developers, existing and potential users of the FEniCS ecosystem as well as mathematicians, computer scientists and application domain specialists interested in numerical methods, their implementation and applications.

The FEniCS 2023 conference will emphasize an open and inclusive atmosphere, contributed talks from a diverse range of scientific areas, and dedicated time for discussions and coding.

Links to previous FEniCS conferences can be found [here](#).

## Important dates

- Abstract submission deadline: TBA in early 2023.
- Application for travel support: TBA in early 2023.
- Early bird registration: TBA in early 2023.
- Conference: 14-16 June 2023.

## Features

- Single track session for talks.
- Dedicated poster session.
- Plenty of time for informal discussions and coding.
- Best student and postdoc presentation prizes.

## Registration and accommodation

All participants must register for the conference. Registration fees and deadlines will be posted here in early 2023. [Hotel Flamingo Resort \\*\\*\\*\\*](#) will offer full board accommodation at a special conference rate, to be booked together with the conference registration.

## Abstract submission

Call for abstract will be announced in early 2023. Conference delegates will be notified if their talk has been accepted. The length of talks will depend on registration numbers, but is expected to be around 15 minutes (plus time for questions). Talking is not a prerequisite for attending: you can register for the conference and attend without talking.

## Travel awards

[NumFOCUS](#) have kindly offered to support travel awards for attendees who would otherwise struggle to come to the conference for financial reasons, e.g. junior students and researchers or those working in countries with a less developed research infrastructure. Applicants to the travel award are strongly encouraged to submit an abstract to the conference.

To apply for a travel award, send a letter of motivation, an estimation of travel costs, CV and the conference abstract (if applicable) to [Francesco Ballarin](#). Applications will be assessed by the organizing committee, and all applicants will be notified if their request has been accepted. The cut-off date for applications will be announced in early 2023.

## Conference venue

The conference will be held at:

[Hotel Flamingo Resort \\*\\*\\*\\*](#)

SS 195, Km 33,800

09010 [Santa Margherita di Pula \(Cagliari\)](#)

[Sardegna, Italy](#).

## Getting to Pula

The main option for traveling to Sardinia is to fly to the Cagliari Elmas Airport (CAG). Further details on how to reach the conference venue in Pula will be posted in spring 2023.

## Code of conduct

We expect all attendees of FEniCS 2023 to follow the FEniCS Project [code of conduct](#). Instances of abusive, harassing, or otherwise unacceptable behavior may be reported by contacting the conference organizers or the [FEniCS Steering Council](#).

## Organizing committee

- [Drew F. Parsons](#), [Università di Cagliari](#), Italy (chair)
- [Francesco Ballarin](#), [Università Cattolica del Sacro Cuore](#), Brescia, Italy
- [Chris Richardson](#), [University of Cambridge](#), United Kingdom

## Sponsors

FEniCS 2023 is supported by NumFOCUS.
